SUMMARY

I am a Software Engineer with over 5 years of experience in writing maintainable and functional code, following best practices in building software solutions. I have adept knowledge in PHP (Laravel), Javascript, Vuejs, RESTful APIs, software architecture and design.

WORK EXPERIENCE

MORGANS CONSORTIUM

APRIL 2021 – Present

SOFTWARE DEVELOPER

Key Responsibilities

- Engaged in brainstorming sessions, and development of business logic for the ID verifications platform using PHP, Laravel, Bootstrap, Javascript, etc.
- Integration of new features into existing backend.
- Maintenance of existing microservices to ensure there is no down time.
- Carrying out code optimizations for optimal performance of the backend services.
- API Integrations for payment gateways, etc.
- Built robust RESTful APIs for the mobile and web app.

Key Achievements

- **Built the company's KYC/AML verification software (Oysterchecks)**
Oysterchecks helps companies and businesses to carry out verification checks of their employees and workers. The system was designed to seamlessly conduct a real time verifications of candidate addresses, adverse media, credit records, Identity verifications, sanctions checks. [Project link](#)
- **Built the company's printing e-commerce website (Tynprints)**
Tynprints is a printing e-commerce website that allows customers to select a variety of designs of their choice, make payment and request for mass production. The system was designed to assist the printing company in getting more orders from different locations without physical visit. The customers have the options to upload their custom designs on the system. [Project link](#)
- **Designed and collaborated in building Recruitment and HR Management System (Portrec)**
Portrec is a recruiting and HR Management system that helps companies to advertise their openings, recruit candidates and manage the candidates.
Portrec has many micro services that serve as standalone modules such as Payroll management system, Attendance Management System, HR management system etc. Portrec allows employees to carry out tests and exams before interviewing their candidates.
