

My name is Ifunanya Ebele Atere. I have a Bsc.in Biochemistry from the University of Lagos, Nigeria. I hereby wish to apply for my MSc. In Public Health Program in your esteemed institution.

In Nigeria, Public healthcare standard is not up to the required standard as it is in other countries. As a result of this mortality rate is on the rise especially if the health care standard lacks the modern facilities that should be available for use. Therefore with my background in Biochemistry in addition to the certification in public health, if I am given admission into your esteemed college I can be part of a good team, an efficient working system to be able to make the best decisions in the public health sector worldwide.

As I write this, I know and hope that the Public health program in this prestigious University Of Memphis will be excellent for me as it will give me an opportunity to learn, re-learn and grow. I also hope that this MSc program will provide me with the skills and knowledge I need to become one of the best in this field.

Thank You.
